

Consulting Firm and Think Tank

WHO WE ARE

# About us

Strategy International (SI) Ltd, is a global scientific, research, consulting, and continued education, professional training and policy crafting Organization Company. Specialized in policy crafting and decision making, communication, political campaigning, scientific research, training and advising among others. Its offices are based out of Nicosia Cyprus; we would like to consider Strategy International a renowned World Policy and Thinking Business Hub located in the Southeastern Tip of the European Union.

We are a consulting company with a global perspective. A think tank that deliberates in multiple dimensions. Professionally and scientifically driven and research oriented. We are a company that is focused on industry and market needs. Utilizing our experts, consultants and senior fellows; we seek out solutions for national, regional and global political, economic, technological and sociological affairs, issues and topics of market concern and stake-holders' needs, operating in a constantly changing geopolitical and strategic landscape.

“ *Your Global Consulting  
Think Tank* ”

# Who we are

**Strategy International (SI) Ltd** dedicates its work to policy research outcomes, which are based on solid practical and applied output; quantifiable and empirical in nature and practice. We propose issues for policy practice and we craft policy recommendations. Through our rigorous consultation and evaluation process, we define solutions tailor-made to the needs of our colleagues, partners, and clients. While our Think Tank foresees the future, we consult methodologies of application.

**Our team** comprises of world-wide expertise that constantly grows. Our work ethics and values are our leading force. Our team is there to support, discuss, organize, advise, consult and operate together with our clients.

**We aspire** to be a consulting firm and think tank that thinks and acts regionally and globally. That delivers to our clients the requested services on time. Our team thinks and acts in multiple dimensions, taking into consideration the need to comprehend and act on regional and global markets that are complex to act upon.

**We provide** outputs that are tailored, yet applicable to the constant challenges taking place. We turn challenges into opportunities for providing the optimal options and outputs to our clients.
